

Spotlight Reporting Cookie Notice

Cookies and Similar Technologies

We use cookies to help us provide you with a personalised service, and to help make our websites, applications and services better for you.

Our cookies may be session cookies (temporary cookies that identify and track users within our websites, applications or services which are deleted when you close your browser or leave your session in the application or service) or persistent cookies (cookies which enable our websites, applications or services to “remember” who you are and to remember your preferences within our websites, applications or services and which will stay on your computer or device after you close your browser or leave your session in the application or service).

We use the following different types of cookies:

Strictly necessary cookies

These are cookies which are needed for our websites, applications or services to function properly, for example, these cookies allow you to access secure areas of our website.

Performance cookies and analytics technologies

These cookies collect information about how visitors and users use our websites, applications and services, for instance which functionality visitors use most often, and if they get error messages from areas of the websites, applications or services. These cookies don't collect information that identifies a visitor or user. All information these cookies collect is aggregated and therefore anonymous. We only use these cookies to improve how our website, applications and services work.

Functionality cookies

These cookies allow our websites, applications and services to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

Web beacons and parameter tracking

We also use cookies and similar software known as web beacons to count users who have visited our website after clicking through from one of our advertisements on another website

or in emails and to collect details of any products or services purchased. These web beacons collect limited information which does not identify particular individuals. It is not possible to refuse the use of web beacons. However, because they are used in conjunction with cookies, you can effectively disable them by setting your browser to restrict or block cookies (see 'how to disable cookies').

IP Address and traffic data

We keep a record of traffic data which is logged automatically by our servers, such as your Internet Protocol (IP) address, device information and use of our websites. We also collect some site, application and service statistics such as access rates, page hits and page views. We are not able to identify any individual from traffic data or site statistics.

How to disable cookies

You may be able to configure your browser or our website, application or service to restrict cookies or block all cookies if you wish, however if you disable cookies you may find this affects your ability to use certain parts of our website, applications or services. For more information about cookies and instructions on how to adjust your browser settings to accept, delete or reject cookies, see the www.allaboutcookies.org website.
